Editorial: A Nation at a Crossroads—The 2025 Midterm Elections and the Fracturing of Power

The 2025 Philippine midterm elections have unveiled a political landscape marked by deepening divisions and shifting allegiances.

Marcos Administration Faces Setbacks

President Ferdinand “Bongbong” Marcos Jr.’s administration encountered significant challenges in the Senate races.

Duterte Dynasties Resilience

Contrastingly, the Duterte political clan demonstrated remarkable resilience. Former President Rodrigo Duterte, despite being detained at the International Criminal Court on charges related to his controversial anti-drug campaign, was re-elected as mayor of Davao City.

Implications for National Unity and Governance

The election results underscore a nation grappling with political polarization. The fractured relationship between the Marcos and Duterte factions, once united in the 2022 elec-

tions, now threatens to impede cohesive governance. President Marcos has expressed openness to reconciling with the Dutertes, emphasizing the need for political stability. However, the path to unity remains uncertain amid ongoing power struggles and legal battles.

Looking Ahead

As the country navigates the aftermath of these elections, the imperative for inclusive and transparent governance becomes paramount. The electorate’s message is clear: a desire for accountability, effective leadership, and a departure from entrenched political rivalries.

## CAYETANO...

Senator Alan Peter Cayetano on Wednesday assured the public that the construction of the New Senate Building (NSB) is proceeding without delay and with an emphasis on cost efficiency. "Full steam ahead, hindi madi-delay at ibinababa yung presyo [ng gusali]," Cayetano said in a media interview at the Senate on April 30, 2025. Cayetano, who chairs the Senate Committee on Accounts overseeing the project, said preparations are underway for a briefing and site visit, possibly next week, depending on the

schedule of Senate President Francis "Chiz" Escudero. "I'll try to get his schedule next week... But kung hindi man, I'll just give you a one-pager so that you know the direction [of the project]," he told reporters. The senator also expressed appreciation to former senator Panfilo "Ping" Lacson and Senator Nancy Binay, who previously chaired the accounts committee, saying the current efforts build on the transparency and direction they helped establish. "We owe to both Senator Lacson and Senator Nancy na transparent

na makita nila y'ung direction at y'ung findings," he said. Cayetano said about 75 percent of the committee's comprehensive report on the construction of the building, which will be submitted to the Senate, is already complete. He clarified that his role as Accounts Committee chair is not to look into past issues but to ensure that the Senate gets "the best Senate building at the soonest possible time at the least cost." "Hindi ko trabaho in this committee to look for anomalies. My report will be factual," he added. ###

## DTI...

Calauan, Laguna— The 2025 Calauan Business Growth Summit, held 15 May 2025 at the Municipal Conference Hall in Brgy. Silangan, brought together local leaders, entrepreneurs, and government agencies in a powerful show of unity and support for the micro, small, and medium enterprise (MSME) sector. With the theme "Empowering Local Businesses for a Stronger Economy," the summit underscored the vital role of MSMEs in driving inclusive growth and sustainable development in the region. A key highlight of the event was the message delivered by DTI Regional Director Marissa C. Argente reaffirming the agency's commitment to uplifting local enterprises. The DTI emphasized its ongoing collaboration with the local government of Calauan and other national agencies to create a thriving business environment for MSMEs. The summit also spotlighted the success of

local businesses, which have benefited from access to broader markets and mentorship programs such as Kapatid Mentor Me and One Product (OTOP). These initiatives aim to build capacity, foster innovation, and ensure long-term sustainability for MSMEs. The summit featured messages from key government officials and representatives from development partners such as Mr. Joel Caalman of IPO PHL who shared discussions on intellectual property and Geographical Indication (GI) opportunities, and the BPLO on the recognition of top business taxpayers further enriched the program. At the heart of the Calauan Business Growth Summit 2025 was a renewed focus on leveraging local agricultural strengths particularly the town's renowned pineapple industry. Experts and stakeholders agree on the potential of secur-

ing a Geographical Indication (GI) status for Calauan pineapples—a move that could elevate the fruit's market value, protect its unique identity and open new export opportunities. With its distinct sweetness, aroma and cultivation methods rooted in Calauan's rich soil and microclimate, the pineapple stands as a symbol of the town's agricultural heritage and economic promise. In closing, the DTI encouraged MSMEs to continue their journey with courage and purpose: "You are not alone. The local government is with you—investing in your growth, opening doors to opportunity, and celebrating every milestone you achieve." The 2025 Calauan Business Growth Summit through the renewed leadership of Municipal Mayor Roseller G. Caratihan, stands as a testament to the power of collaboration in building a resilient and prosperous local economy. (Tawingan TF, DTI Laguna PO)

## DOST...

The Department of Science and Technology (DOST) - CALABARZON, through its Grassroots Innovation for Inclusive Development (GRIND) Program, conducted the fourth leg of SalikLakbay Solutions Mapping in Indang, Cavite, May 7, 2025. The activity united representatives from the Department of Trade and Industry (DTI) - Indang, Local Government Unit (LGU) of Indang, Universities, and Office of the Provincial Information Office (PIO) of Indang, applying the pentahelix approach. The immersion began with an orientation and activity briefing. Af-

terwards, participants proceeded to key sites in Indang to map three potential Grassroots Innovations (GIs): Mrs. Lorena Sanchez's kalamay production in Brgy. Buna Lejos 2, a heirloom recipe preserved through generations; traditional weaving (habi) by Mrs. Marciana Tepora of the Mahabang Kahoy CERCA Weavers Association, a culturally rooted and endangered craft that showcases Filipino manual artistry; and kaong-based products (sugar palm) development by Dr. Junn Lapitan at Marayata Farm, which promotes circular economy practices by optimizing natural resources and minimiz-

ing waste. Each innovator faces unique yet connected challenges, including the declining number of kalamay makers, lack of facilities and tools for traditional weaving, and limited awareness and adoption of sustainable kaong development. During the synthesis session, insights and reflections were shared for potential S&T interventions to address these challenges and support the sustainability of these innovations. Stay tuned and follow DOST CALABARZON for more updates on the GRIND Program and other community-centered S&T initiatives! /PR
